

 Combo Drive

 Extra Coarse Thread

 Type 17 Self-drilling Point

Cabinet Installation Screws – Quickscrews

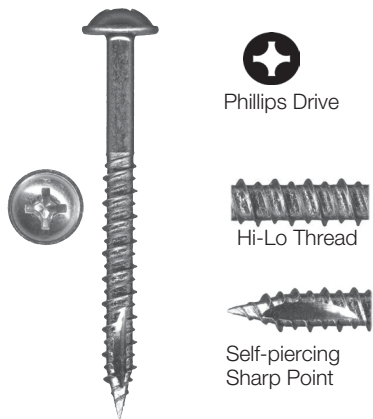

- Patented Double Type 17 self-drilling point provides quicker starting, minimizes the need to pre-drill, and reduces torque while preventing splitting
- Extra coarse thread for fast drive time and maximum holding power
- Round washer head includes a Combination Square/Phillips drive; screws can be installed with a Square or Combo drive bit; Phillips drive bit can be used for removal, not installation, if a Square or Combo bit is not available.
- Case hardened for added strength
- Partial thread

Material: Steel; Finish: zinc-plated

Øx Length	Quickscrew Item No.	Item No.	Packing
#10 x 2 1/2"	7927	010.89.901	1,500 pcs.
#10 x 3"	7935	010.89.902	1,500 pcs.
#10 x 3 1/2"	7936	010.89.903	1,000 pcs.
#10 x 4"	7937	010.89.904	1,000 pcs.
#10 x 2 1/2"	8335	010.89.911	1 pkg. (500 pcs.)
#10 x 3"	8337	010.89.912	1 pkg. (500 pcs.)
#10 x 3 1/2"	8339	010.89.913	1 pkg. (250 pcs.)
#10 x 4"	8341	010.89.914	1 pkg. (250 pcs.)

Note

Use a #2 drive bit

 Phillips Drive

 Hi-Lo Thread

 Self-piercing Sharp Point

Cabinet Installation Screws – Quickscrews

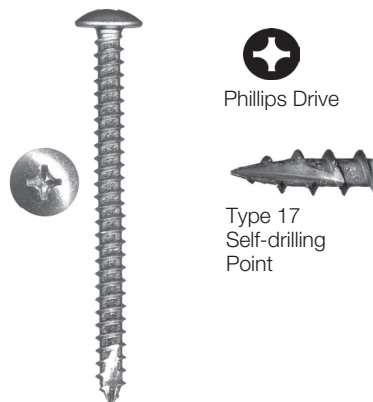

- Multipurpose cabinet installation screws are designed to work in both wood and metal studs
- Self-piercing sharp point allows for instant starting, quicker penetration and faster drive speeds.
- Hi-Lo thread provides greater holding power in wood and metal studs and eliminates binding in metal studs
- Phillips Round Washer Head
- Case hardened for added strength
- Partial thread

Material: Steel; Finish: zinc-plated

Øx Length	Quickscrew Item No.	Item No.	Packing
#14 x 2 1/2"	8214	010.88.901	1,500 pcs.
#14 x 3"	8215	010.88.902	1,200 pcs.

Note

Use a #3 drive bit

 Phillips Drive

 Type 17 Self-drilling Point

Cabinet Installation Screws – Quickscrews

- Type 17 self-drilling point provides quicker starting, minimizes the need to pre-drill, and reduces torque and splitting
- Phillips Truss Head
- Case hardened for added strength
- Full thread
